SEPTEMBER - DECEMBER  
2022

# MESSAGE FROM THE NURSERY HEADTEACHER

We have come to the end of an exciting term in our new academic year!

To all our new students and parents; welcome aboard to the Jaffery Academy family.

The children who joined us this term and those that transitioned to a new class have settled in well.

As we continue to create an environment where each child is encouraged to achieve their personal excellence and full potential, I would like to thank both the teaching and support staff for ensuring that this type of environment is warm and welcoming to all our children.

Our Early Years set-up offers a happy and healthy environment for children to thrive in; from our healthy snacks, the range of fun play and co-curricular activities offered, to the endless cuddles given by staff.

We also recognise that, the parents, are the first and foremost educators in the little children's lives. We aim to develop strong parent partnerships and welcome you to participate in our vibrant Jaffery Academy Nursery community.

Enjoy the photos we have enclosed in this newsletter including the children reporting their experiences. 'We nurture a reflective practice in our children' as can be seen in these wonderful reporting comments from these young journalists. We are proud of the confidence and independence that has unfolded, it's truly amazing.

*Mrs Mwanaidi Omar*

*Thank you,  
Nursery journalists for your  
contributions to this terms  
Newsletter*

# Nursery Events

# CONSTRUCTION DAY

"It was so much fun! I made a car with my mum, vroom! vroom!"

"I got a medal, I was very  
happy. My Mum, Dad and my  
sister came to see me."  
Journalist Nidaa About  
4 years

# MESSAGE FROM THE JUNIOR HEADTEACHER

And just like that, it is the end of a term. How fast time moves especially when you are engrossed in engaging learning activities. The Junior school has been a beehive of activities all carefully planned and conducted in a child-friendly manner.

Learning is not all about book and pen. Learning happens in any enabling environment. That is why at Junior school we allow our learners to take lead of their own learning. For instance, our learners got an opportunity to engage in experiential learning through trips. Each class this term had an opportunity, with the help of their teachers, to explore a destination of their choice and identify the learning objectives at their level. It was amazing to listen to the chattering of excited learners after each successful trip!

Appreciating attainment and motivating progress goes a long way in maintaining an environment where everyone works towards individualized set targets. This is why we had our very successful Prize Giving Day. We look forward to celebrating each and every success of our students in the coming terms.

Our recent Stem Fair, where learners had unlimited opportunities to explore, observe and discover new learning through engaging learning experiences, showcases how our environment enhances the curiosity in learners through fun activities.

Sports day offered a platform for learners to showcase their team spirit and resilience. It truly was a day filled with fun and healthy competition with a display of great sportsmanship.

To crown the term, our learners proudly showcased Club Moments through display stalls and stage presentations. It was a great day for our learners to share special moments, achievements and skills acquired and learned during their club sessions.

Guess what! The above events have been wonderfully reported in this newsletter by our very own budding Junior school journalists. Please take a moment and enjoy the read.

Looking forward to welcoming you back on 4th January 2023 to begin another school year full of educational activities and learning opportunities.

Happy Holidays

*Mrs Irene Wambugu*

## Junior Events

At exactly 2.00p.m, Mulla Asghar Hall was filled to capacity. Invited Parents joined Jaffery Junior teachers and parents to celebrate high achievers in both academics and co-curricular activities. Students who excelled in different areas were awarded with beautiful trophies and certificates.

As they walked up to the stage, hearty claps and cheers filled in the room. I was happy to be one of them. The anxiously awaited moment was when the overall winners were called out. They were given Jaffery Clap as they received their awards. Congratulations to all the winners!

What an exciting Prize Giving Day!

## PRIZE GIVING DAY

**Journalist Tanya Vaja**  
Yr 5

## PREFECTS INAUGURATION

After the rigorous campaigns by the aspiring Junior School leaders, we held prefects' elections.

On the D-day we were all anxious to know who our leaders were. One by one, they were called up on stage to receive their badges as the whole school clapped for them. I wished I were one of them! They all took an oath of office and were encouraged to serve everyone irrespective of whether they voted for them or not.

Our best wishes are with them as they serve.

**Journalist**  
**Tasha Rawal - Yr 5**

## Junior Events

### STEM FAIR

On 28th October, the Junior school organized a science STEM FAIR. We all enjoyed making our projects. Everyone had created different and amazing models. We loved it when our parent came and looked at our projects and encouraged us. At the end, we all had fun and also learnt something new.

**Journalist  
Muskaan Fatema - Yr 4**

### LEARNING WALK OF ARBAEEN

In the month of Muharram, we commemorated the tragedy of Karbala through the Learning walk of Arbaeen. During the walk, we learnt more about Lady Zainab, the granddaughter of the Holy Prophet (s.a.w) from strategically placed posters and student talks. At the end of the day, each student not only received a bottle of water, biscuits and dates but also wrote down their experience and reflections on a sticky note.

**Journalists  
Sayyeda Zainab Somji and  
Mohammed Abbas  
Khaku - Yr 6**

### SCOUTS BEACH CLEAN UP

Masks up...Gloves on...Brains at work... That was the spirit as the Jaffery Sungura Scouts unleashed their energy during the clean-up exercise at Bahari Sports Club Beach. Our tolerance was put to test as we braved the midday sun, as if it was toasting us to spicy crisps. The lessons were stunning as we explored different types of plastic and non-plastic wastes found along the beach shore. The experience was that of a lifetime whose memory shall forever be cherished.

**Journalist  
Ruqaiya Yusuf - Yr 5**

Indeed, an incredible mark was made towards a clean, peaceful environment surrounding the beach. Given chance we would repeatedly indulge in the noble task. SCOUTS BRA...VO

# Junior Events

## ASK SHOW

Year 6 students had a breathtaking trip to the A.S.K showground. We observed the lush, green cabbages and chili plantations. We were taken through the farming journey: planting to harvesting. On proceeding further, we were all taken aback by how enormous and healthy the cows were! We learnt what they feed on and how to take care of them.

We viewed some rare snake species that we had ever seen! It remains one of the most fun learning excursions we have had this term.

**Journalists**  
**Sayyeda Zainab Somji**

## CLUB MOMENTS

It was fun, exciting and I love how all the club participants were confident when presenting.

**Journalist**  
**Aaliya Kamalia - Yr 4**

I really enjoyed the event and I hope we have it again!

**Journalist**  
**MohammedMustafa Khaku**  
**Yr 3**

## YEAR 1

## Junior Trips

On a fine Thursday morning, all Year 1 classes set off to Haller Park.

We arrived at the park just before 9.30 in the morning. I felt like I could burst with excitement as I remembered that I was about to see a hippo for the first time. We were able to see the giraffe, snakes, monkey, butterfly and crocodiles.

In the end we set off back to school at noon. The weather and most of all being with my friends, made it the best Trip ever.

**Journalist**  
**Musa Hafidh - Yr 1**

## YEAR 2

### Our Trip to Fort Jesus

Our boarding the bus, we first visited Fort Jesus where we saw the canons and learnt how to use it. Later we were taken through the museum and the prison. We also went inside a cave. After break we saw where the captain used to live and then went back to school.

**Journalist**  
**Batul Asban - Yr 2**

## YEAR 3

### My Dream Come True!

On 25th October, we set off for our most waited trip to Naivas Supermarket. I couldn't keep calm, I was finally going to shop for my parents! We left school at 8:00 a.m. and everyone in the bus was in high spirits. We got held a bit due to traffic jam. Finally, we arrived at Naivas and we jumped out of the bus as fast as a flash. After making a line, we rushed in and picked the biggest trolley! We all picked a lot of stuff. When I went to the counter, I found out my money wasn't enough! The cashier allowed me to return some stuff and now understood why it is good to follow your budget! Afterwards, we went to Nguuni Sanctuary where we saw some water bucks and an ostrich. It was the best trip I have ever had.

**Journalist**  
**Alaqqmar Hamid - Yr 3**

## YEAR 4

**Journalist**  
**Aamarali Muraj - Yr 4**

One early morning, we had an educational trip to Malindi. We boarded the bus at 7:00 a.m. It was my first time to wake up that early for a trip! On our way, we saw some physical features and means of transport that most people use. Our first stop was The Arabuko Sokoke Forest where we took an exciting nature walk and learnt about different types of trees. We also saw some butterflies and heard the chirping of birds.

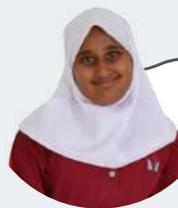

Afterward, we went to Gede Ruins which means 'precious'. We learnt a lot about The Ruins. Finally, we went to see an estuary, where River Sabaki connects to the Indian Ocean. It was a breathtaking experience to see some people fishing in the river and cows drinking water! Although we came back tired, it was a very exciting trip.

## Year 5

Have you ever been to Shimba Hills? If not, let me enlighten you on the amazing things you should experience in Shimba Hills.

When we visited the reserve, we were ushered in by a nice, calm friendly man to Shimba Hills Game Reserve. Amazingly terrified and equally excited, we saw gazelles, warthogs, towering giraffes, enormous elephants and cute deer. We then headed to the water fall which is a three-kilometer walk. The path was rocky, steep and slippery. We were extremely astounded to see a natural waterfall. We bombarded our guide with questions like: Is the water fresh? Where does the water come from? After much fun-learning experience, we boarded the bus back to school.

That was the most adventurous trip we have ever experienced.

**Journalist**  
**Khansaa Sameer - Yr 5**

## Year 6

The Year 6 went on a trip to Shimoni Caves. They also visited the museum, toured the forest and Kongo Beach. Although they did not go inside the museum, they learnt its history. In the forest, they saw baboons and monkeys. They learnt about different types of trees and their uses. Afterwards, they visited the graves and later went to the caves and learnt a lot of history. They played and prayed at The Kongo Beach. Though tiring we had an educative and fun trip.

# MESSAGE FROM THE SENIOR HEADTEACHER

Dear All,

We feel very privileged and proud to be working alongside some very special and talented individuals (In the KSI Board, Parents, the Staff team, and our most esteemed clients -the students.) Indeed, we are committed to securing the very best possible outcomes and successes in all that we do. I would like to thank you all for the tremendous support you have given us. Working with you during this academic session has seen us reap good fruits for the students and the school in general.

At Jaffery we learn together to achieve success for all. We cultivate and track the progression of every child- in terms of academics, socially amongst their peers, emotionally within themselves, and how they react to different situations, morally as well as physically celebrating all achievement in a secure, mindful and productive environment.

The whole team works together to bring learning alive and extend pupils' experiences so that they are well-prepared for the next steps in their education. Jaffery as a school provides more than lessons, it fosters holistic education that encourages challenge, ambition, and drive. We aim to teach values such as appreciation, endurance, integrity, responsibility, and friendship.

This term, Students were able to engage in varied activities both internal and external. We hosted the second Annual Interschool Debate meet, (right after our annual inter-house debates) which was a great success and we hope to keep growing the event and have participation by more schools next year. The Annual MUN conference was a great event that the students took part in. Our Candidates embarked on their Pre Mock exams too and we have nothing but positive hopes. We are also proud to see that this newsletter has articles submitted by 'Journalist students' - a true picture of our success.

We look forward to a positive and vibrant academic term next year, with hopes and prayers that the Almighty will shine a light on the path that we walk on as Jaffery Family.

THANK YOU

*Mr Jonah Alwiga*

## SPORTS DAY

In the build-up to sports day, all the students were excited to try and win their house the glamorous title of Sports Day Champions!

The tensions were rising while the hype overflowed. Finally, the day arrived.

All houses and their house captains gathered in their respective tents, Teachers were ready to kickstart the event. It was a very heated competition, with no house backing down out of the title race, The House members cheering their friends on. It was a spectacular event. Girls and Boys alike brought the glory of their respective houses.

In the end for the Boys' Sports Day, under the valiant leadership of the respective House Captain won pretty easily, Green House emerged victorious! While on the Girls' side, under their respected House Captain, Blue House rose as champions!

Congratulations to all.

## MANGROVE PLANTING

Jaffery Academy, as a Gold Partner, was invited to attend a tree-planting activity at Mikindani, on the fifth of November. The main goal was to plant mangrove trees by the number of your age and to help create a safe environment. The journey began with a short assembly at Aga Khan hospital. This engaging activity involved different schools and sponsors.

This simple yet meaningful activity helped us create good citizenship amongst us as club members as well as representing Jaffery as a well reputed school, which takes pride in the smallest act that will reap good seeds for our environment and community. It was a great experience to be part of this rewarding exercise. The environment is no one's property to destroy; it's everyone's responsibility to protect.

**Journalist**  
**Shamsa Hamid - Yr 9**

# Extra-Curricular Clubs

The Menders of The Hearts Club is a club formed in Jaffery Academy to assist those in need, especially in rural areas. The main objective of the club is to 'fix' broken hearts through charity work, as well as create positive change around the world. Over the term, the Club has engaged in various activities including planting trees at Mikindani Area, Tudor Creek, hosting a food sale, and a donation drive week to collect funds and items to be taken to charity, including but not limited to Swabur orphanage. In addition, the club aims to create a sustainable way of improving the lifestyle of those in need, in order to change their lives for the better.

**Suhaima Twahir Yr - 12**  
**Chair of Mending Hearts Club**

As the class of 2023, our aim is to make 23 changes before next year June and make sure that this club has major impact on everyone inside and outside school.

### **Our main objectives are to:**

- better the lives of those most in need
- improve the environment and
- develop awareness and understanding of the communities we live in.

### **So far, we have been able to accomplish:**

-Sending donations to Pakistan flood victims, Donation to Palestine, Cleaning the school in order to help our support staff, Planting seedlings to help the environment, Donations to cancer patients and donating to an orphanage.

By the end of our academic year, we wish to finish making 23 impactful changes to the lives of people and to make this world a better place. With the support of the school, students and colleagues we are positive of the change we will bring and are excited on the journey we have left to explore.

**Journalist**  
**Jamila Baloch Yr - 12**

## **MODEL UNITED NATIONS - A PRISM OF POSSIBILITIES**

From the 31st of October to the 2nd of November 2022, Jaffrey students from Years 7-10 went to Oshwal Academy under the guidance of Mr. Jared Otieno, the Patron of MUN Jaffrey Academy Club for the 20th Annual OMUN.

This year's Annual OMUN theme was a 'Prism of Possibilities' which focused on providing opportunities for the disadvantaged. This theme was incredibly important for the Jaffrey MUN club to be a part of, since they are passionate about giving back to society and providing opportunities for the disadvantaged.

They displayed their passion for this theme by writing resolutions on health, security, economics, technology, and many others while in their respective committees in hopes of bettering the aspects of the people struggling in different countries.

The students also got to interact with various other students from different schools and it was incredibly fun meeting new people and trying to make conversation.

We are also incredibly proud to say that our very own two students got the title of best delegate: Naimah Tony and Dharmik Walji. We hope you are as proud as we are of this success.

For the Senior Category the Resolutions that passed:

Tuvalu - led by Moza Khalfan

United Kingdom - Zahra Osman

United Kingdom security Council - MohammedAbbas Khatau

We had students who emerged as the best speakers in the Senior category:

Mohammed Amersi and Abbasali Salim

Sanaa Riyaz and Nashwa Salim performed equally well in global summit while Mohamed Khatau alone represented UK in security council and convinced the house to pass their resolution.

To say that we are looking forward to the next annual OMUN would be the understatement of the century!

**Journalist  
Naima Leli - Yr 8**

# DEBATE

## INTER-HOUSE DEBATE CHALLENGE

The 2022 Inter-house Debates took place between the Knights, Samurai, Vikings and Spartans.

In Round 1 we had the Samurai vs the Knights where the Knights emerged the winners.

In Round 2 the Vikings vs the Spartans took place, and, in the end, the Spartans emerged the winners.

Round 3 saw the Vikings and Samurai battle it out and the Vikings won this fierce round.

And last but not least in Round 4 we had the Knights go against the Spartans.

It was an intense battle between the best teams and in the end, the Knights emerged as the season's champions!

**Journalist  
Zahra Fazal- Yr 12**

**Journalist  
Saniya Noor- Yr 12**

## INTER-SCHOOL DEBATE MEET

Five schools came together on November 12 to exchange knowledge, collaborate, and explore various motions.

The format of the second edition of the Jaffery Academy Annual Debate meet was somewhat unique. Unknown students from various schools engaged in an impromptu conversation.

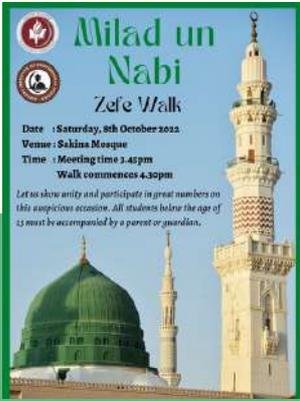

To succeed and pick up new techniques and ways of doing things, they must collaborate with them.

Every team has 45 minutes to deliver their speech. In these 45 minutes, they had to spend time conducting research, separating viewpoints, and ensuring that the speech is delivered in an engaging and polite manner. Four teams, two opponents, and two proposers participated. For our discussion, there were two motions. It was a lot of fun feeling anxious and thrilled.... The outcomes of both discussions were so close that it was quite challenging to determine a winner. In the end, we all learned something.

# MILAD UN NABI

The Milad-un- Nabi week commenced with the Zefe walk, whereby students walked together from Sakina Mosque to Makadara ground under one banner; in celebration of the birth of the Beloved of Allah: the Prophet Muhammad ﷺ.

The IRE team then organized an Interhouse Senior school Football event for both boys and girls separately. There were two age groups: 7-9 and 11-13. The beauty of this competition was how it brought together kids from different classes to form one team, reflecting the idea of unity. The Red house won the football event for students in grades 7-9. The Green house for the boys and the Blue house for the girls took first place in the football tournament for students in grades 10 through to 13.

The IRE team had used posters, colourful bunting, and sayings of the Holy Prophet ﷺ to decorate the school. A number of classroom Milad-un-Nabi activities took place.

Additionally, all students attended special assemblies to commemorate the birth anniversary of the Holy Prophet Muhammad. Beautiful readings of the Holy Quran, points for contemplation, Milad speeches, poems about the Holy Prophet and humanity, and Nasheeds were all recited.

Students had a non-uniform day on that same day, they also gave the children a chocolate treat, which they enjoyed commemorating the conclusion of Milad-un-Nabi week.

**Journalist**  
**Murtaza Abdulsattar Yr - 9**

# Great Happenings

## WORLD DAY OF REMEMBRANCE

Jaffery Academy hosted the World Day of Remembrance for the road crash victims which enabled us not just as citizens but also as good humanitarians to commemorate the loss of families and friends. In road accidents. This also opened up the path to conversations between governmental, non-Governmental organizations and the Public on how we (as a society) can play a role in improving road safety and revive its importance on a national level. This led to discussions by multiple organizations on measures that can be put in place in the short-term and long-term, which will help us tackle the issue of road safety meticulously.

## LAUNCH OF SCHOOL ZONE

As a school we value the safety of every one of our members. We also believe in leading by example. Therefore we led the initiative of road safety by establishing a school zone with well-labeled and marked roads to enable drivers to be able to follow road safety rules more easily. This further led us in the renaming of the two roads that lead to our school with names of The Pioneers of education. They were aptly renamed. Al-Baqir-the revealer of knowledge and as Sadiq- the truthful one. Thus reflecting what we as a school stand for and the core values we hold.

**Journalist**  
**Mohammed Jawad Walji**  
**Yr 13**

# NURSERY HEAD TEACHERS CONFERENCE

Jaffery Academy pursues to remain the hub of empowering minds in the region. One of the many ways it has done to achieve this was by hosting the first-ever Nursery Head Teachers Conference in the region. Held on Saturday the 22nd of October 2022 and graced by a prominent keynote speaker, Dr. Maina Gioko. The school welcomed head teachers of International and Private schools in the region. There was an overall of 25 participants. The whole idea of the conference was to create a bond between the Heads and this was gracefully achieved by engaging in activities that involved the mingling of the heads. It also aimed to brainstorm ways the learning institutions can collaborate and network in future.

Additionally, the conference was to ensure familiarity with 21st century pedagogies which will impact learning at the foundation stage. They managed to get good collaboration and to date, the heads are still engaging through a WhatsApp platform where they share ideas on what they can do to empower teachers as well as provide solutions for any challenges faced. "I believe that this conference is the beginning of future collaborations for the betterment of our learning institutions," says Mrs. Mwanaidi Omar, Head of the Nursery School, who is definitely considering another Head Teachers Conference together with a workshop consisting of active hands-on activities. This conference proved to be a massive success, as reflected from the evaluations.

**Journalist**  
**Zainab Bawazir Yr - 13**

# LEADERS CONFERENCE

## 'Progress comes when great minds converge'

Jaffery Academy Mombasa successfully hosted a unique Head teacher' conference on the theme, 'Leadership for Learning.' During their discussion they explored the current leadership trends in Education and the Development Levels of Leadership and how these can be effectively applied in different schools' context.

It was a great moment to see leaders from different schools work collaboratively towards one goal- the learner- rather than competitively. The facilitators creatively unpacked leadership as being all about change and that the role of a leader is to influence how people think (touch the Head), how they feel/act (touch the heart) and how they behave/do (touch the hands).

It was a baby step yet very fruitful session towards future collaboration of leaders of international schools.
